# CHAT-GPT

You're probably no stranger to this one! ✨

**Chat GPT** shocked the world back in November when it was released. It's a powerful AI language model developed by OpenAI that can generate human-like text based on the input it receives. Chat GPT can be a game-changer, offering a wide range of applications from customer support to content creation.

With the right prompt - you can get the exact answer you're looking for and not have to write another email, social media post or ad copy again!

**Some basic prompts to get you started:**

**“I want you to act as a [ROLE] and create a [TASK] in a [FORMAT]”**

e.g. I want you to act as a marketing consultant and create a social media strategy in a dot-point list.

**“Explain [TOPIC] to me like i'm 5 years old”**

e.g. Explain Blockchain to me like i'm 5 years old

**“Provide a step-by-step guide on how to [TASK]”**

e.g. Provide a step-by-step guide on how to set up a Google Ads campaign

Remember - more context means better answer. Give as much information as possible to get the perfect response.

💡 **Pro Tip!** Always end your prompt with the following:

**“Please do not hesitate to inquire about any details or clarifications you may require to accurately address this prompt.”**

# CHAT-GPT

**You ready for some real fun? 🚀**

Once you've accustomed yourself with Chat GPT you may want to upgrade to Chat GPT+. This advanced version offers a more sophisticated model that delivers more nuanced and well-considered responses.

Additionally, you'll gain access to an extensive array of community-created plugins that enable you to achieve even greater functionality and customisation:

## Access Link

Access Link allows you to seamlessly access any web links and extract the information you need. Whether you're looking for specific data or just want to browse the content of a webpage, Access Link makes it easy to retrieve and utilize web-based information directly within Chat GPT.

## Prompt Perfect

Crafting the perfect prompt has never been easier. With the Prompt Perfect plugin, simply start your prompt with the word 'perfect,' and the plugin will assist you in creating a prompt that is optimised for clarity and effectiveness. Get the best possible responses from Chat GPT every time.

## There's An AI For That

Discover the ideal AI tools for your specific use case with this comprehensive plugin. Drawing from the world's largest database of AI tools, There's An AI For That helps you find the most suitable AI solutions for your needs, whether you're looking for automation, data analysis, or any other AI-powered functionality.

## Expedia

Turn your travel plans into reality with the Expedia plugin. Whether you're planning a business trip or a vacation, this plugin helps you organize your travel arrangements, from booking flights and accommodations to finding exciting activities and attractions at your destination. Bring your trip to life with the convenience of the Expedia plugin.

# ZAPIER

## Zapier is the Swiss army knife of automations

Acting as a bridge between your favourite apps and services. It allows you to connect different software tools without any coding knowledge, enabling you to automate repetitive tasks and streamline your business operations. With Zapier, you can create custom workflows, known as "Zaps," that trigger actions in one app based on events in another app. It's a powerful tool that can save you time, reduce manual data entry, and help you focus on more important tasks.

### INTEGRATE

Zapier's integration feature allows you to connect and automate tasks between over 3,000 apps, eliminating the need for manual data entry and streamlining your workflows. By integrating your favorite apps, you can create seamless processes that save time and increase efficiency.

### NO-CODE

Zapier's no-code platform enables you to create powerful automations without writing a single line of code. With its user-friendly interface, you can easily set up triggers and actions, allowing you to automate complex tasks and workflows with just a few clicks.

### SCHEDULE

Zapier's scheduling feature lets you set up automations to run at specific times, giving you full control over when your tasks are executed. Whether you want to send out weekly reports, run monthly data backups, or perform any other time-sensitive tasks, Zapier's scheduling feature ensures that your automations run exactly when you need them to.

### FILTER

Zapier's filter feature allows you to set conditions for your automations, ensuring that they only run when certain criteria are met. By adding filters to your Zaps, you can create more targeted and precise automations, ensuring that your tasks are executed only under the right circumstances.

# MAKE.COM

## New to automation? Make.com's here to show you the ropes ✨

Make.com is an automation platform designed for businesses looking to optimise their operations with a focus on workflow automation and team collaboration. Make.com enables businesses to create complex automation workflows, integrate a wide range of software tools, and gain actionable insights into their processes. Its features and user-friendly interface make it an ideal choice for businesses looking to automate their operations in a collaborative and process-driven manner.

### SHOPIFY

3. Send follow-up personalised email

## Why Choose Make.com Instead of Zapier?

If your business requires workflow automation with a focus on team collaboration and process optimisation, Make.com is a suitable choice. While Zapier is excellent for simple task automation and connecting apps, Make.com offers a solution for automating complex workflows, fostering team collaboration, and optimising processes. Both platforms have their strengths, and the choice between them depends on your specific business needs. Make.com is also a lot more beginner friendly and is the most intuitive.

# MOTION

In today's fast-paced world, managing tasks and meetings can become a juggling act 🤹

Meet Motion, an innovative AI scheduler designed to adapt to your ever-evolving day. Rather than merely reminding you of your tasks, Motion intelligently rearranges them based on shifting schedules, newly added or updated meetings, and task priorities. All you need to do is set your tasks and define your schedule, and Motion seamlessly orchestrates the rest. Say goodbye to manual rescheduling and let Motion's AI capabilities optimise your day for maximum productivity and balance.

Input your weekly tasks, set their priorities, and define your schedule. Motion seamlessly crafts a comprehensive plan for your week. An unexpected meeting? The system dynamically adjusts your agenda to accommodate it. Simply begin each day tackling tasks as they're presented, relishing the satisfaction of marking them complete.

Experience a surge in productivity, efficiently completing tasks and reclaiming more time to the things that matter. Say goodbye to procrastination.

Priced at \$34 USD/month, Motion might seem on the higher side, but when you consider the immense value it brings, it's a worthy investment. Think about the hours you'll reclaim and the efficiency you'll gain. Beyond just a simple task manager, Motion integrates a to-do list, a comprehensive calendar, and a booking page, consolidating multiple tools into one streamlined platform.

# BARDEEN.AI

**Navigating the vast expanse of the internet for specific information can be like searching for a needle in a haystack** ↗

Bardeen.ai transforms this challenge into a streamlined process. This powerful tool delves into the web, extracting precise data tailored to your needs. Whether you're looking to retrieve a list of members from a Facebook group, compile contacts from a LinkedIn search, or even summarise extensive websites and blogs, Bardeen.ai has got you covered. Dive into the digital age with efficiency and precision, and let Bardeen.ai be your guide in the intricate world of web scraping.

## Enrich

a list of LinkedIn company profile links in Google Sheets

Saves 20 min

Ever had a list of LinkedIn company profiles and wished you could get more detailed insights? With Bardeen.ai, you can. Simply input a list of LinkedIn company profile links, and watch as Bardeen.ai enriches a google sheet with every bit of valuable data, turning it into a comprehensive database.

Crafting individual email drafts can be time-consuming, especially when dealing with a long list of addresses. Bardeen.ai streamlines this process. Input your list of email addresses into Google Sheets, and Bardeen.ai, leveraging the power of OpenAI, will generate tailored email drafts for each address. It's efficiency and personalisation, all in one.

# STACK-AI

In the age of information, the ability to quickly extract and understand content from documents is paramount 🔍

Stack-AI.com revolutionises this process. By simply uploading a document, you can seamlessly ask questions and receive accurate answers in real-time. Whether you're navigating the complexities of a legal document or streamlining the onboarding process for trainee staff with training materials, Stack-AI.com ensures you get the insights you need without the exhaustive search. Dive into your documents with a newfound clarity and efficiency, making Stack-AI.com an indispensable tool in your digital toolkit.

In this example we input the Wikipedia URL for "Seinfeld" and inquired about the main character. With the context set to guide its responses, Stack-AI pinpointed the answer: "The main character is Jerry Seinfeld." But its prowess extends beyond web links. Whether you're sifting through dense PDFs, navigating txt files, or exploring online content, Stack-AI streamlines the process. By simply providing the document and posing your question, you receive precise answers, eliminating the need for manual searches. It's an invaluable tool for those seeking to optimise their research and data extraction processes.

## Outbox Solutions

# NOW IT'S YOUR TURN

Our team at **Outbox Solutions** has harnessed these innovations to supercharge our productivity, achieving what once seemed impossible—completing three times the work in the same amount of time. The results have been transformative, not just in terms of efficiency, but in the quality of our work and the satisfaction of our clients.

But why keep these insights to ourselves? We're passionate about sharing our knowledge and helping businesses like yours thrive in this digital age. If you're intrigued by the potential of optimising your workflow and want to explore how these tools can be tailored to your unique needs, we're here to guide you.

### But why should you listen to us?

We specialise in streamlining Australian businesses, eliminating bottlenecks, and optimising workflows. Consider us your partners in growth, ensuring your operations are seamless and your profits remain robust. Say goodbye to tedious data entry, mundane tasks, and exhaustive customer service.

Concerned about costs? Here's our promise: You'll only be billed for **20%** of the savings you accrue. It's a win-win.

Take the leap. **Schedule a call** with us and discover the potential to elevate your business.

In the meantime...

We're offering a **free 30-minute consultation** call where we'll dive into your current processes, identify areas of improvement, and provide actionable steps to elevate your business operations. It's an opportunity to tap into strategies that have been game-changers for us, and they can be for you too.
